Jetion Solar Holdings Limited

("Jetion Solar" or the "Company")

Jetion Solar Sponsors Solar Race Car

Jetion Solar Holdings Limited (AIM:JHL), the manufacturer of high quality and high efficiency solar cells and modules, is pleased to announce its sponsorship of a solar race car developed by the University of Applied Science in Schweinfurth (FH-SW), Germany.

Engineers at the University's Solar Racing Club are developing the solar race car which will compete in the North American Solar Challenge (NASC) in 2010. The car will run exclusively on solar energy and will be powered by high efficiency solar cells specially designed and provided by Jetion Solar. Over 25 teams from around the world will participate in the NASC, journeying 1,100 miles from Tulsa to Chicago to win the title of most reliable and efficient solar car.

Jetion Solar's expertise in the solar industry and its latest generation of silicon cells make the Company an excellent sponsor for this project, and construction of the car has now commenced with completion anticipated in March 2010.

Andy Gruenberg, CIO/COO of Jetion Solar (Europe), commented:

"This is an exciting project which further establishes Jetion Solar at the forefront of innovative development in the solar industry. With our excellent track record of high quality and high efficiency solar products, Jetion Solar is an ideal sponsor and collaborator in the new space of solar motor sport. We are pleased to further our commitment to the solar industry through this sponsorship."

Falko Patersenn, Solar Racing Team Manager at FH-SW, commented:

"We are delighted to have such a reliable and well regarded partner and sponsor on board this solar race project. With Jetion Solar's support and technology, we look forward to successfully competing in the North American Solar Challenge in 2010."
